Company Profile

CHINA SOLAR

Nowadays, when the earth resources are drying up, the solar energy, as a kind of "unexhausted" energy, which is safe, energy saving and environment friendly, is more concerned by people. It has become a most desired energy for the new century.

CHINA SOLAR

Products of CHINA SOLAR LTD mainly include the PV components and PV electricity generating system of all kinds of series and specification. In the high tech industry of solar battery and PV electricity panel design, the company maintains a strong and cooperative technical group who has been doing research in the field of solar photoelectric products for years. Meanwhile, the company has the latest whole sets of equipment and all kinds of testing apparatus required for the production of solar batteries, being capable of producing all kind of high-power batteries. Its PV components are sold to many places such as Europe, United States, South America, etc.

CHINA SOLAR

Our concept: live through quality, develop through honesty, the unexhausted sunlight has no limitation, and so does aspiration, base ourselves on the development of PV industry and work hard to enable people around the world to use this environment friendly energy.
